## Day 1: **Mushara Outpost, Etosha National Park**

### **Etosha National Park**

If you're looking for some wildlife on your Namibian holiday then **Etosha National Park** is the place. From desert to savanna to woodlands, Etosha's landscape is varied and jam-packed with wildlife. It's defining and, at 5000 square kilometres, its largest feature is the Etosha Pan which for most of the year is a bleak expanse of white; shimmering with mirages and the distant shapes of animals seeking the vital water found on the fringes of the pan.

The many natural springs scattered throughout Etosha attract a cross section of African wildlife from the diminutive – and endemic – Damara Dik Dik to the magnificent elephant. Of the 114 mammal species found in the park, several are rare and endangered, such as the black rhino and black faced impala while big cats such as lion, cheetah and leopard are all present and on the hunt! *Etosha National Park* is also a bird watchers paradise with over 340 species present many of them migratory.

There are a number of private game reserves adjacent to the Etosha National Park. These include Ongava Private Game Reserve and Onguma Private Game Reserve, only 10 minutes drive from the National Park's gates and close to fly-in airstrips. The distinct advantage of staying at one of these reserves is the ability to partake in night game drives as well as bush walks with trained guides. Accommodation is luxurious and exclusive compared to the semi-government owned properties within the park's gates and offers the discerning some of the most luxurious lodging in Namibia.

### **Overnight: Mushara Outpost**

**Mushara Outpost** is a luxury tented camp just outside Etosha National Park, only 10km from the Von Lindequist gate. It is a recent, and most welcome, addition to the region and offers refined elegance in the heart of the bush. The main house is comfortable and quaint, with the feel of an old farm house. There is an expansive veranda with stunning views, a restaurant and bar as well as a sparkling swimming pool. Browse the library if you wish to learn more about the animals and plants you will encounter on your game drives, and there is internet access if you really have to check your mail.

Accommodation consists of eight canvas tents each with a wooden deck opening out into the uninhabited African bush. Each tent is raised a meter and a half above the ground and you can enjoy this panorama in complete privacy. There are large glass windows and a sliding door which allow the light to filter in, as well as the sights and sounds of the wilderness! Facilities include a mini bar, coffee station, safe deposit box, telephone, mosquito net, hair drier and airconditioning. And the open-plan bathrooms are fantastic with glass windows and you can let down the canvas wall to your shower if you please.

### **Explore Etosha from Mushara Outpost**

Mushara Outpost is the perfect base from which to explore Etosha National Park. It is just 10km from the Von Lindequist gate and the camp offers great game drives with expert rangers. So hop aboard an open-top Landrover and let the Safari begin! One of Africa's finest reserves, Etosha is home to lion, leopard, rhino and elephant (all the Big Five except buffalo), as well as 114 mammal species, 340 bird species, 110 reptile species and 16 amphibian species. It encompasses an area of 22,270km<sup>2</sup> and offers a great wilderness experience all-year round. And what better place to come home to after a day in the bush than your luxury canvas tent with a private deck and all creature comforts.

## Day 3: Nambwa Tented Lodge, Zambezi Region

---

### Zambezi Region

The Caprivi Strip is the name given to the little finger of Namibia that sticks eastwards between Angola and Botswana all the way across to Zimbabwe and creates the only spot on the planet where 4 countries meet. The Caprivi is also in the middle of one of Africa's largest and most well know game viewing areas. The abundance of water supplied by the Zambezi, Okavango, Kwando and Chobe Rivers sustains a large variety of animal and bird species. There are four Namibian reserves and no fences preventing the animals from moving between the countries.
